

# NEW GENERATION

S E C U R I T Y 6 P I N C Y L I N D E R S

## Cylinder Range

Oval and euro profile cylinders for mortice locks are available in a wide range of lengths. Those shown in the highlighted bands are the more common sizes.

Also available is a rim cylinder, rim mortice cylinder and scandinavian cylinders.

## Range Includes

- ▶ Range includes 6 pin security cylinders in euro profile, oval profile, rim, threaded and scandinavian versions.
- ▶ Available Keyed to Differ, Keyed Alike, Master Keyed.
- ▶ Satin Chrome or Polished Brass.
- ▶ Designed to conform to BS EN1303 grade 3 security.
- ▶ Designed to conform to the highest level of durability of BS EN1303, grade 6.
- ▶ Sub-assembled cylinders, key blanks and pinning kits available for local servicing.

The Esla family contains a range of security cylinders which are designed specifically for the security specifier where good aesthetics, performance, cost and availability are extremely important. The latest edition to the family is the Esla NG range of security 6pin cylinders.

## High Quality Standard

Esla NG cylinders are designed to meet or exceed Grade 3 security status of the BS EN1303 CEN standard, as well as the highest level of durability, Grade 6.

## Offset Cylinders

If the lock is not fitted centrally within the door an offset cylinder must be specified. Simply calculate the required length of cylinder on each side (take the distance from the lock centreline to the face of the door and add the thickness of hardware), and select the nearest appropriate combination from the chart above.

## Sub Assembled Cylinders

Cylinders available in sub assembled form to enable to Key Alike or Master Key.

## Master Keying

Efficient turnaround of \*Master Keyed Systems.  
\*Subject to parts availability.
