

Extractors

For Auto, Commercial & Safe Locks

Ultimate Extractor Kit in Plastic Tube

CODE: PLTPEK-T

The kit contains the 3-piece double-sided extractor pliers, a set of three single-sided extractors, three styles of sidewinder extractors (that slip along the side of a key) plus a miniature saw blade extractor all packaged in a plastic tube.

Tool Wallet

CODE: PLTCO-P2

Leather tool wallet to keep your set of extractors in one place.

3-Piece Scissor Extractor Set

CODE: PLTESS-B

3-piece extractor pliers set. Contains one of each of the Peterson extractor pliers.

1-Piece Stainless Saw Extractor

CODE: PLT1P-SSE

Saw tooth extractor in government stainless steel.

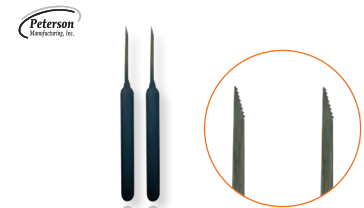

2-Piece Mini Saw Extractors

CODE: PLT2PE-MINI

This is a pair of our miniature saw tooth extractors that work well on small locks.

2-Piece Saw Extractor Specialist Set

CODE: PLT2P-SE

This set gives you two popular saw toothed extractors in Peterson's blue spring steel.

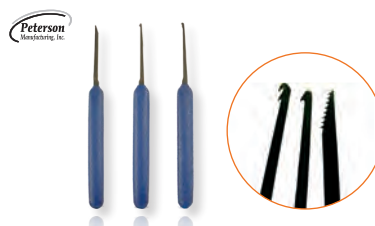

2-Piece Mini & Medium Saw Extractors

CODE: PLT2PE-L-M

This is a pair of our miniature saw tooth extractors that work well on small locks.

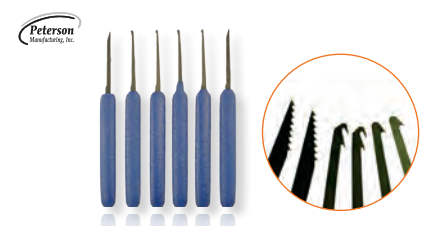

3-Piece Extractor Set

CODE: PLT3PE-B

3-piece set of high quality extractors is ready to add to your pick set arsenal, or for replenishing your PEK extractor kit. Packaged in a durable plastic tube.

6-Piece Extractor Set

CODE: PLT6PE-B

Here are six (two each) of Peterson's high quality extractors packaged in a durable plastic tube.

Extractors

For Auto, Commercial & Safe Locks

Sidewinder Shim Extractor Set

CODE: PLTSS-EXT

The tapered nose of the 0.004 thick shims lift the locks pins or wafers up out of the way allowing the bent finger to enter the key cut. With the pins lifted up and the finger woven into the key cut, pull the key out. Works best on pin tumbled cylinders. Set of three in leather case.

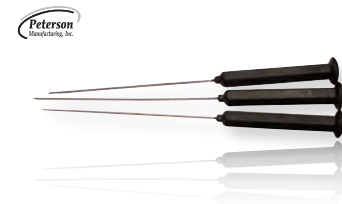

Blunt Spiral Extractor Wires x5

CODE: PLTBS-EW

Set of blunt spiral extractors, pack of 5.

Spiral Extractors - Set of 3

CODE: PLTBS-EW-3

Peterson's exclusive "CORE LOCK" design insures that the spirals will not twist or pull out of the handle ever. The innovative button head makes pulling easy.

Broken Drill Bit Scissor Extractor

CODE: PLTBDB-E

The innovative Broken Drill Bit Extractor gives you three layers of hard biting, saw tooth jaws that prevent twisting and guarantee a solid grip. This precision instrument reaches up to 1½" (38mm) deep.

Long Broken Drill Bit Scissor Extractor

CODE: PLTLDB-E

A longer, government steel version of the standard bit extractor, this far reaching tool extends your grasp up to 4" (100mm). Recommended for use in drilled holes deeper than 1½" (38mm).

Broken Drill Bit - Un-Winders

CODE: PLTBDB-UW

Set of 4 spring steel tools gives you the reverse force needed to free a wedged bit. Just a twist of the wrist, or LIGHT tap of a hammer, gets that stubborn tip loose and ready to remove with the Broken Drill Bit Extractors. Designed for 3/16" and 1/4" drill bits.
