

# Cylinder Removal Tools

## ZIEH-FIX® BASIC 'BELL PULLER' CYLINDER & PLUG EXTRACTION KIT

WENDT

**Code:**  
LS-W1104G

Professional tool for the plug-pulling and destruction of euro profile, round and oval cylinder locks.

This special tool, developed for locksmiths and governmental agencies, allows you to easily remove any type of (profile, round and oval) cylinder locks. The "BELL" allows the fast opening of doors without damaging the door or the door guard. Using the plug extractor plates for the pulling of plugs, you will also get quick and easy access to the locking mechanism.

The "BELL" often is the only effective manner of a time-saving emergency-opening, especially in the case of multiple-bolt locks and half cylinders (cylinders that only contain 1 plug and can only be opened from one side of the door), as commonly used for example in glass-doors, garage-doors, alarm systems and shades.

## ADJUSTABLE CYLINDER SNAPPER KIT EURO & OVAL

**Sonder Tools**  
The Best of Germany

**Code:**

LSACS1

The cylinder snapper works by exploiting the weakness in cylinder design. Will snap most standard Euro or Oval standard cylinders.

**Kit Includes:**

- 1x Handle.
- 1x Euro Head.
- 1x Oval Head.
- 1x Alan Key.
- 1x Metal Universal Key.

## DOUBLE-ENDED CYLINDER SNAPPER EURO & OVAL

**Sonder Tools**  
The Best of Germany

**Code:**

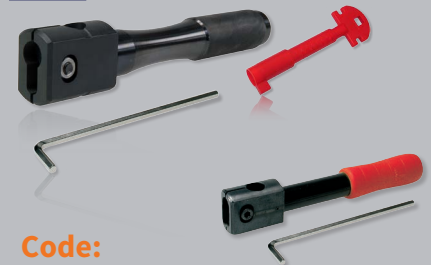

LSCS1

A hardened cylinder snapper for Euro profile and UK Oval cylinders. Made to tight tolerances for maximum effect.

- The cylinder needs to project a few mm to work.
- Tight manufacturing tolerances ensure a perfect fit.
- Zinc plated and then painted black.
- Optional kit for quick removal of broken pieces and bolt retraction.

## POWER CRACKER CYLINDER SNAPPER - EURO OR OVAL

**WENDT**

**Code:**

LS-W1084MPZ (EURO)

**Code:**

LS-W1084MOV (OVAL)

These compact tools are made of solid high-quality steel to ensure the durability of your tool. The adjustable clamp adapter which has a profile on the inside will grip the cylinder and break it easily even if only a very small portion of the lock is showing (only ca. 2 mm required). Euro profile version has plastic profile cylinder key included.
