

REKEYABLE PADLOCKS

FITTING INSTUCTIONS: HOW TO MODIFY A EURO PROFILE CYLINDER TO FIT SQUIRE PADLOCKS

- 1. Remove module
- Modify a euro cylinder to dimensions shown and insert into Module and then into padlock body.
- Lock and unlock padlock to ensure correct operation. Insert retaining screw and tighten

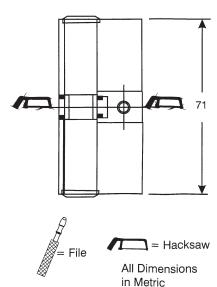

3 The modified cylinder

which are critical

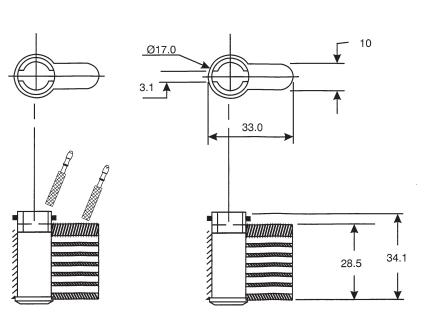

should have these dimensions

1 A single or double cylinder can be modified. A 71mm equal sided double is recommended.

> N.B. Remember you now have two cylinders more keys may be required.

2 Modify it by cutting and filing
