Alimentation: 2 AA batteries (2x1.5 V)

Dimensions:
Length: 147 mm (5.79")
Depth: 88 mm (3.4")
Height: 26 mm (1.02")

Net weight: 210 grams (0.46 lbs)

Easy Scan - Plus

User-friendly and updatable software
Easy Scan has a **user-friendly software interface** to guide you step by step through all the duplication procedures for Silca Air4 remote controls. The device software can be updated using a USB cable and a dedicated software program to ensure your remote duplication service is **constantly up-dated.**

Code detecting function
The device immediately **detects the original remote control type,** identifying both its frequency and code type (fixed or rolling) and indicating the Silca universal remote model to use: Air4 F, V or Q.

Essential for quartz remotes duplication
Easy Scan is the indispensable tool for copying quartz remotes on Air4 Q. **It measures the transmission frequency** of the original remote and guides you in **adjusting the power of the antenna.**

Duplication check
With the aid of Easy Scan you will easily be able to **check that the Air4 duplicate for fixed code remotes is correct** and that the rolling code for the new remote has been properly generated.

Portable and functional
Its compact size, light weight and easy-to-handle design make it a **portable solution** also suitable for small shops. It comes with an anti-slip pad to ensure its stability on your work station.
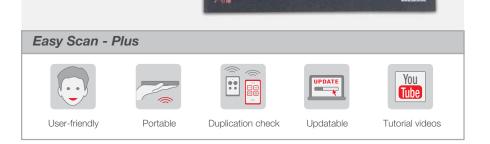

Multilingual
The Easy Scan software is available in **7 languages:** English, Italian, German, French, Spanish, Portuguese and Dutch.

Easy access to tutorial videos
The **QR code** on the device grants prompt access to the online tutorial videos showing you the duplication procedures for copying each type of remote.

The pad graphics will help you put the remote in the right place for perfect signal transmission.

Air₄ remotes

Air₄ is the first-rate solution for duplicating residential remote controls, suitable for barriers, gates and garage doors. Combining cool design, state-of-the-art technology and functionality, Air₄ allows you to duplicate with ease most remotes available on the market.

AIR₄ RANGE

Air₄ comes in **3 different versions** able to duplicate the vast majority of remotes currently on the market:

- **Air₄ F:** for remotes using a **fixed frequency of 433.92 MHz AM.**

- **Air₄ V:** for remotes with **frequencies ranging from 433.92 to 868.35 MHz (AM/FM).**

- **Air₄ Q:** for **quartz remotes with frequencies ranging from 27 to 40.685 MHz.** Silca uses state-of-the-art technology with no need for interchangeable crystals to copy this type of remotes.

Air₄ has been produced in conformity with CE mark European standards.

SMART KIT SOLUTION

Start off your residential remotes business with the **Air₄ kit,** which includes:
- a market-tailored **range of remotes;**
- eye-catching **POS materials** (poster, window sticker and display stand with sample);
- **Easy Scan** and its accessories.

AIR₄ - Plus

Widest remotes coverage on the European market
With Air₄ you can duplicate the **largest variety of fixed and rolling code remotes** available on the market.

Extensive radio frequencies range
You can choose from 3 different models (F, V, Q) for perfectly reproduction of **remotes with frequencies ranging from 433.92 and 868.35 MHz, as well as low frequency (quartz) remotes.**

Simple duplication procedure
Duplicate your customers' remotes quickly and easily thanks to Air₄'s **head-to-head automatic add-on, self learning frequencies function and simple programming procedure.** With the aid of the Silca Easy Scan device you will also be able to make the necessary adjustments for low frequency remotes and check that the copy is correct.

Outstanding quality coupled with affordability
Air₄ provides all the quality and reliability of a CE certified product **entirely designed and manufactured in Italy.**

Universal solution to meet all your customers' needs
Air₄ provides your customers with a single solution for storing **up to 4 different remotes in one device.**

Ergonomic, functional, cool design
Available in **3 colour combinations,** Air₄ has anatomical grip, anti-slip profile and a string for easy attachment to key rings.

Compact and long-lasting
Air₄ is **light, compact and durable,** with solid plastic buttons and splash-proof technology that protects it against rain and water spills.

AIR₄ is suitable for:

| Barriers | Swinging gates | Sliding gates | Garage doors |
